37	Section 7 Terms of Reference Para 3.0 (Page No.60) Desirable qualification: Consultants and study team	The Qualifications of the team proposed may be revised as not to include Ph.D. and M.Phil/ M.Tech. The qualification for seniors a Masters Degree and for others a Bachelors Degree would suffice. Our experience of working in this sector suggests that people with higher academic qualifications are either not available or will stay on the job for a long time.	The desirable qualifications as included in RFP are considered adequate and change proposed is not agreed to.
