

**SAHNEWAL – PILKHANI AND DADRI – KHURJA SECTION**  
**OF**  
**EASTERN DEDICATED FREIGHT CORRIDOR**  
**TECHNICAL PROPOSAL OF CIVIL, STRUCUTRE AND TRACK WORKS:**  
**CONTRACT PACKAGE: 301 & 302**  
**RESPONSES TO PRE-BIDQUERIES OF THE BIDDERS**

**Dated 07.09.2015**

S.N.	Reference to Bidding Document	Clarification Sought by the Bidders	DFCC's Response
(1)	(2)	(3)	(4)
160.	GAD & Hydraulic data Referring to 1. Drg.No.AECOM/301/IMP/13 Sh. 1 of 2 for Pkg. 301 2. Response to quires sr.no 34 dt. 26-08-2015. 3. Hydraulic Data Part-4 (Vol.7/7) for Pkg. 301	As per GAD the FRL mentioned is 272.481, whereas the HFL mentioned is 271.455, which does not satisfies the required minimum vertical clearance of 1.50m up to soffit of the truss. Hence please confirm the Level of HFL, formation etc.	Attention of the Bidder is invited to Para 3.1(3), Volume 4, Section VI, Part 2 at Pg. 181 wherein it has been clearly mentioned that the details given in Part 4 for the GAD's are indicative and for guidance only. This clause also clearly indicates that a hydrological survey for the Bridges is required to be undertaken by the Contractor which inter-alia will involve fixing of the HFL as well. Moreover, the exact Formation level to be adopted at the location of the Bridge will also depend upon the alignment to be designed by the Contractor with the approval of the Engineer. As such, it would not be possible to spell out the exact HFL, Formation Level etc. to be finally adopted at this location.
161.	GAD & Hydraulic data Referring to 1. Drg.No.AECOM/301/IMP/55 Sh. 1 of 2 for Pkg. 301 2. Response to quires sr.no 34 dt. 26-08-2015. 3. Hydraulic Data Part-4 (Vol.5/7)	As per GAD the FRL mentioned is 274.947, whereas the HFL mentioned in hydraulic data is 273.147, which does not satisfies the required minimum vertical clearance of 1.50m up to soffit of the truss. Hence please confirm the Level of HFL, formation etc.	Please refer to response to Serial No. 160
